

Window 1: Tregony Road South

- Notes:**
- Locations of existing road gullies will be identified and inspected at detailed design stage.
 - Pedestrian friendly grating types will be specified for those identified within visual road narrowing's. The detailed design of the works will be subject to Stage 2 RSA and S278 approval by CC in the usual manner.
 - Lighting review will be carried out at S278 design stage with Wainhomes funding the improvement of street lighting if required. Lit area to be extended to new extent of 20mph zone.
 - Specification of block paving to be agreed at detailed design stage.

- Key**
- Existing double yellow line markings
 - Block Paving - Type 1
 - Block Paving - Type 2

Window 2: Tregony Road North

Window 3: New Location of 20mph Gateway
